SENIOR PRODUCT DESIGNER | UX/UI SPECIALIST

Senior UX/UI Designer with 4+ years of experience delivering high-impact SaaS platforms, dashboards, and mobile applications. Expert in scaling design systems and translating complex business requirements into intuitive, user-centered digital products. Proven track record of increasing user engagement by 50% and reducing development time by 20% through strategic design-to-dev handoffs.

PROFESSIONAL EXPERIENCE

Technet World | Senior UX Designer

May 2025 – Present (Tunis, Tunisia)

- **Spearheaded the UX strategy** for a complex industrial time-tracking SaaS, architecting a multi-level user hierarchy (Admin, Manager, Field) to streamline enterprise data flows.
- **Designed high-density KPI dashboards** focusing on data visualization and information architecture, resulting in faster executive decision-making.
- **Collaborated with Business Owners, Marketing, and Dev teams** to align product features with market goals and technical feasibility.
- **Scaled a comprehensive Design System** in Figma, ensuring 100% visual consistency and WCAG accessibility across all platform modules.
- **Minimized cognitive load** for end-users by optimizing interaction patterns, leading to a measurable increase in daily operational productivity.
- **Facilitated usability testing and user research** sessions to validate prototypes, ensuring a user-centric approach for all new feature releases.

Concentrix | IT Consultant & Advisor (Uber Merchant Platform)

Jan 2025 – May 2025 (Tunis, Tunisia)

- **Diagnosed and resolved** complex UX friction points for Uber's restaurant-side platform, maintaining high operational uptime for global merchants.
- **Synthesized** merchant feedback into actionable UX insights, directly influencing product roadmap improvements and dashboard usability.
- **Optimized** merchant onboarding workflows, reducing the time required for new users to navigate and master core platform features.

Hello Dati | UX/UI Designer

Mar 2023 – Jan 2025 (Tunis, Tunisia)

- **Engineered** automated data flow visualizations and dashboards that slashed manual processing time by 40%.
- **Led** stakeholder UX workshops, bridging the gap between business needs and user expectations to increase user satisfaction by 30%.

- **Managed** a unified Design System that improved cross-project consistency and boosted design team productivity by 25%.

Xelero | UX/UI Designer

Jun 2022 – Feb 2023 (Tunis, Tunisia)

- **Conducted** deep-dive user research (personas and journey mapping) that drove a 50% surge in user engagement.
- **Produced** high-fidelity wireframes and prototypes that optimized the build phase, cutting total development time by 20%.
- **Delivered** end-to-end UI mockups and MVPs, contributing to a 35% improvement in user retention.
- **Architected** a library of reusable UI components, effectively reducing project development costs by 15%.

Naza Dev Solutions / Fidness | UX/UI Designer

Jun 2021 – Jun 2022 (Tunis, Tunisia)

- **Designed** a centralized loyalty card wallet MVP, creating interactive prototypes that secured a 30% faster client approval rate.
- **Orchestrated** design-to-dev handoffs, reducing redesign efforts by 20% through clear documentation and consistent communication.

TECHNICAL SKILLS

- **Design & Prototyping:** Figma (Expert), Adobe XD, Sketch, Axure RP, Adobe Creative Suite.
- **Research & Strategy:** Usability Testing, User Journey Mapping, Information Architecture, Personas, KPI Dashboards.
- **Collaboration & Dev:** Agile/Scrum, Design Systems, HTML/CSS/JS (Foundational), Git, Zeplin, Miro, Slack.

EDUCATION

- **Professional Technician Diploma** | Computer Science and Management (2023) | Ecole de formation des cadres (EFC)
- **Higher National Diploma** | Computer Science and Management (2021) | Ecole de formation des cadres (EFC)

LANGUAGES

- **English:** Fluent (Full Professional Proficiency)
